OBITUARY ?

CHARLES GOULAH A Tweed, Sept. 1 (Special) — Charles Goulah an employee of the Nichols Chemical Company, Sulphide, died suddenly while a work at the plant on Wednesde;

edien Props is exchartedy entitled to use for republication of all severalists credited to it or to The Associated Press or Reuters, in this paper and also the local news published therets.

A TIMELY DECISION

Toronto magistrates at a conference last week decided a get-tough policy for youthful rowdies having in mind jackass indignities inflicted on innocent victims by ess vouths.

bees enseless youths.

Said Magistrate Browne, "Any namby-pembying of hees young hoodiums who have been attacking policemen and molesting citizens has got to slop." He stated that holice officers were being subjected not only to indignities, util were being assuited by these huiking lads. "Sentenses, have been stiffened lately," he continued, "but will be better the continued, but will be to be tiffened lately," he continued, "but will be

ces, have been summed stery," he continued, "but will be a lot stiffer from now on."

Youths brought into court for various offences now tended-to put the blame on their parents, their environ-ment or their companions — but not upon themselves, he

Wal, it is about time that something drastic was done to discourage outlaw actions of Toronio gangs. Nearly every day there is some report in the press about new outbraks of the sociently brigade. Why they include their perverted taste in wearing such outlandlan costumes is a purise that we have not seen answered. If they want to fight among themselves there would not be too much objection, but why pick on policemen unless it is for the thrill of taking part in a dangerous pastime.

It would appear these ladds have not sufficient work that the summer of the summer of taking part is not appeared the properties, on a sufficient work has been sufficient to the summer of the summer o Well, it is about time that something drastic was done

ing him down and robbing him in the process. In any case whatever success they have with this sort of thing gives them encouragement to go into hig-time crime later on. That is if they are not discouraged by viginant police action and subsequent puntahment meted out by the court. Whether or not the origin of this restlessness starts in the home is a matter that could be investigated by socialist

use nome is a matter that could be investigated by socialist workers and others who have some measurement with the socialist workers. Some parents are lar in home discipline, some homes are disturbed by blekering and family quartels all of which do much to encourage young people to spend more of their free time on the atreets. Thus we have the seiting for gangs to form, and eventually plan their mischlerous acts.

chierous acts.

If young people enjoyed pleasant environment and could learn interesting hobbles such as the Kiwanis Cub of this city sponsors is 14th, bobble classes during the winter, there would be less included to induce the interesting the facilities young adults sometimes are easy prey for other companions whose moral senses are easy prey for other companions whose moral senses have been studied by the same conditions. Thus when they apply the property of the conditions of the conditions

ions.

Public opinion, therefore, will back the magistrate's decision to hand out sentences of sufficient severity to curb hooliganism such as has been occurring in Toronto and alsowhere.

FRANCE AWARDS SCHOLARSHIPS
43 Canadian students have been awarded scholarships
the French Government for the session of 1949-50. This

will allow them to take their candemic studies for that ses-cien in France.

How attractive, the scholarships are is indicated by the statement that the French Embassy had received more than 200 applications and the French authorities had to Traine will welcome these students who will have the opportunity of study strong and have at the same time opportunity of study strong and have at the same time

opportunity of study abroad and have at the same time every opportunity to gain a more inlimitate personal knowl-edge of the French people and French universities, one of the finest influences of this time. In the French Government realizes the importance of the interest by students of other countries in France. Such commot but be an influence for more complete understand-ing of Frances and her people.

PEACE MUST BE EARNED

FRACE MISS BE EARNED

Ten years this saturday have passed since Britain declared war on Germany for the invasion of Poland. Trementious ermits have taken place in this decede of time.

"The word's greatest war occupied our main attention for
six years, and still we are trying to win the peace by
spending huge amounts of national funds on being prepared militarity against supprise atlack. There is a deterimitation by the free nations of the world that there will
make the property of the province of the property of the property of the province of the world that there will
make the province of the province o initiation by the free hadded of the world that the be no more appeasement and unreadiness that marked the opening of the last war.

How bright the future looked when Japan and Ger my finally bowed their knees in 1945. No one

Most bright the future looked when Japan and Germany, finally bowed their knees in 1945. No one suspected that former allies would turn against one another in suspicion' and distrust. But that has changed, the cleavage between the western countries and flussis, shows no sign of healing and a common meting ground countries. The cleavage between the western countries and flussis shows no sign of healing and a common meting ground countries. The shows a subject of the countries of

prevail. It will if the Democracies continue then vigilant attitude. Any other course is unthinkable.

WATCH YOUR DRIVING

WATCH YOUR DEBUYING
The approach of the Labor Day weekend hollday brings its appeal from Minister of Highways George Doucett for sate and ame driving on the part of motorists. We are gird to pass it along knowing full well that there will be the usual number of crays and selfine. In the complete of the complete of

Lost Jahoc Day there were eleven traffic fatalities despite the fact that the press and raiso devoted their usual space and time to warn recitless drivers of the danger. Infritteen more were littled on Dominion Day and twelve on Civile Boilday. Most of these could havabeen prevented, by observing common sense and road council with which the world have a superior of the council to the council t Last Labor Day there were eleven traffic fatalities de

safety. If the substitute of the control of the con

THE FIRST TO DIE

For a nong time in England, it was the rule that when in husband and wife perished together, as in a shipwreek, and no direct evidence could be found of the exact time eleval and noticed verdence could be found of the exact time eleval exact time eleval together and the exact time eleval exact time

HISTORY OF LABOR DAY

HISTORY OF LABOR DAY

Next Monday Canada and the United States will
observe the 55th anniversary of Labor Day, a day set apart,
in home of organized labor. Being the last of the Summer's
long weekends it is celebrated in some places by parades,
public meetings in the interests of abor, and by others as a
welcome respite from daily toil.

The custom of observing such a day had its origin in
the mind of a union carpenter, Peber J. McGuller, a native
will still a child. In May of 1882, he stood before the
newly-organized Central Labor Union of New York and
proposed that one day be set aside as a general boliday for ed that one day be set aside as a general holiday for

nBey-organized corporations of the proposed that one day be set saide as a general holiday for the proposed that one day be set saide as a general holiday for the day says: McGuire suggested that the holiday be known as Labor Day and that it be set for the first Monday to Replember, which would put it midway between two U. Other delegaties enthusiastically embraced the idea. Committee was named and soon_preparations were under way for the initial celebration of Labor Day.

Approximately two years after this first Labor Day, the 26 delegates to the fourth annual convention of the American Federation of Labor held in Chicago adopted the

American Federation of Labor heid in Chicago adopted the following resolution: "Recoived, That the first Monday in September of each year be set apart as a laborer's national holiday, and that we recommend its observance by all wage workers, irrespec-tive of zex, calling or nationality."

tive of sex, calling or nationality."

During the next few years organized labor devoted its attention to securing state legislation making Labor Day as legal holiday. As early as 1887, Oregon enacted the first state law, but this measure designated the first Saturday in June as Labor Day. This was changed to the first Monday In September in 1893. Ultimately, 23 states proclaimed

in September in 1893. Ultimately, 23 states proclaimed Labor Day a legal holiday. The Labor Committee of the House of Representatives in May of 1894 presented a favorable report on a bill making Labor Day a legal public holiday.

By June of that year Congressional action on the bill had been completed and two days later the measure was signed by President Groper Cereland. The pen used by the President was turned over to Representative Amos J. Cummings of New York City, who apponed the bill in the House. Cummings then sent the pen to President Samuel

House. Cummings then sent the pen to Frestein samusi Geompers of the American Federation of Laboranced the idea of a special holiday honoring labor before the Central Labor Union of New York City, the proposal had the appro-val of the American people, expressed through their elected representatives at Washington.

The Canadian Press, in an article on the subject, says that the passing of legislation in Canada was preceded by apported street parades and labor demonstration—a toron to the street parades and labor demonstration—a toron to the street parades and labor demonstration—a toron to the street parades and labor holiday had become a political issue and the bill was personally piloted through parallament by a Conservative prime minister, Sir John Thompson. Even then Sir John faced strong opposition in Bis own ranks and in the Senata.

has own namis and in the Senate.

As well, the holiday, in its concept and practice as a
distinctly North American celebration, contrasts with
Europe's May Day on May 1 — an unrecognized holiday
flaunted by labor's extreme left wing and often marked by
street scenes and conflicts with civil authority.

Canada's Labor Day, instead, has more in common
with the parades of eart guidad in medieval England. Their
festival, as is ours today, asserted the workingman's claim
to an honored position in society and gave him a chance to
show his pride in his work.

Much credit for the holiday must go to a Canadian, the ate Alexander W. Wright, born in Markham township near late Alexander W. Wright, born in Markham township near Toronto. A colorful figure, Wright was a newspaperman swith the Guelph, Ont., Herald, then secretary of the Cana-dian Manufacturers' Association, and finally editor of the Journal of the U. S. Knights of Labor.

journal of the U. S. Knight of Labor.

In this star position he was one of the forces behind the star position of the holiday. He insisted in Mendandton that it be held in Replember and not on May law, which even in 1894 was being taken over by European nozicals. And then he went to Canada as a one-man lobby to persuade the prime minister that Canada should have the own labor holiday.

Today labor is faced with the results of a post-war reveiling off in the ranks of tindustry. The full employment of wartime is no longer.

JUST FOLKS By EDGAR A. GUEST (Copyright, 1949, Edgar A. Guest)

REASON FOR CARE.

But by the fear they may be lost. Because it must be stained

GIVE THOUGHT TO THE BLIND

Once again 'the Canadian National Institute for the Blind is to make its annual appeal for funds for its work for the 98 blind persons in Hastings County. The appeal has been set for the month of September, with canvasses and tag days in various county centres. The annual appeal in Belleville will run from today to the 17th with a

Believille will run from today to the 17th. with a gad yon Saturday, September 17th.

There is an old Chinese proverb which runs, "It is better to light a candle than to cure at darkness." This asying has special significance in connection with the work of The Canadian National institute for the Bild, for it typiftes the Institute's philosophy of service: to emphasize what once and or ather than to bemand what one cannot are the provided to the control of the control of the provided that the control of the cont

what one can do rather than to bemoan what one cannot. To enable bind Canadians to use the latents and abilities that remain theirs even when sight is lost, tile Institute offers a variety of services designed to meet the individual needs of each one facing the problem of blindness. These services have shown thousands of Canadians in many walks of life or the services of the serv

National Institute for the Bilind.

But all sightless people are not potential industrial workers. Bilind people carry on as organists, music teachiers and stand operators, with Institute guidance, training, and encouragement. Braille music and books to assist them can be borrowed from the library with its attock of over 25,000 titles to suit every taste and need. Many sightless people are thus making a worter or the positive pools are thus making as worter or ingenuity, backed and communities, the suit of the suit o

Blind.

Other people may present different aspects of institute services. There are housewives, who, when blindness comes, may think their useful days are over. The visit of a C.N.L.B. home teacher, blind herself, shows her that she can adapt her methods of cooking and cleaning so that lack of sight her methods of cooking and cleaning so that lack of sight is no obstacle to encessful houseleeping, this gears that also can kent agata, and do the maniphetin a talking book machine, the slow-speed record player used for recorded versions of printed books. Recorded books, are borrowed from the CNLB, library, and can be redd at leisure or when knitting and darning are being done. An unknown video may read "The Egg and "a boat of the re, and she is

happy again.

All these people, and countless others like them, look to The Canadian National Institute for the Blind for some measure of service. It may be for the books they read. It may be for advice or assistance in a new business entermany be for advice or assistance in a new business entermany before advice or assistance in a new business entermany. may be for advice or assistance in a few distance, or prise; for things like braille watches and thermometers, or for games, playing cards, chess boards specially designed for the use of those who cannot see.

for the use of those who cannot see.

Many elderly people who lose their sight in later life need the assistance the Institute can give, probably to supplement their neagre incomes. They may find that they can past their time pleasantly and profitably in craft work. Home teachers institute them in ruiting, weating lading, chair cannot be considered to the control of the control

ness and dependance are benished.

These are just a few of the hays in which The Canadan National Institute. He Blind seeks to "light a candle" in the spirited mind and heart of those who must can be seek to b

"Sound journalism is always worthy of praise"

feel mer that you, too, will like The Sundard's colarged Magazine section in irt new, colorful printing plant, one of the finest anywhere. This is another major sup-printing plant, one of the finest anywhere. This is another major sup-proposed of which is to provide you with a place that is both easier to read and more planting in appearance.

Editorially the newly-dressed magazine will continue to feature articles that are of particular instress to Canadians, without overlooking things that are of broader concern, whether it be the Memoirs of Winston Churchill, or the latest trends in the motion picture world.

More than 300,000 Canadians from coast to coast are buying The Standard. We invite YOU to get The Standard this week, next week and every week.

THE DEPARTING SUMMER

The DIFFARTING SUMMER

The holidays are once even if officially the summer stays on until the twenty-first of this month.

Apily its seems there has been a turn in the weather which has prevailed during the summer and which has been one of the most unique within memory, So much heat has poured upon this part of the world that it cannot be forgotten for many years. This people who have the score of the westher for many decades at their fingertips cannot be suffered to the second of the score of the westher for many decades at their fingertips cannot have been successed to the second of the second o

some few instances.

Probably with all the faults found with summer for the heat, it has been a summer which has had more popile enjoying themselves to the fullest extent. Never before have so many holidayed and taken advantage of the season to get the very most out of those benefits which come m warmth and sunlight, especially the sunlight which people have come to know as possessing unusual power heal and strengthen.

Now with the summer practically departed and in the wisdom of the educators of boyhood and girlhood and youth of the land there is the trek of healthy hundreds of thousands of boys and of the land the wisdom of the land the land the land to the land the land the land to youth of the land there is the trick of healthy hundrejes of shousands of boys and gifts back from the fullest freedom to register in the schools for continuance of the training. In June they telt the class room for the fields and open air. Now all wearing the mark of 804 upon them, that heattly than which shows that they have been taking advantage of nature it had not a support the state of the state of the the riches of the tunning, they return to third classes. Looking back on the Chanklain angree rather roungled of the limited disadrant ages when the contract of the limited of the limited disadrant ages when the contract of the limited of the limited disadrant ages when the contract of the limited of the limited disadrant ages when the contract of the limited of the limited disadrant ages when the contract of the limited of the limited disadrant ages when the limited in the limited of the limite

the summer has been an enjoyable one because more enjoy-ed it than enjoyed any summer in previous years, for every-one has the holiday spirit and reaps the benefits of that

MacARTHUR AND JAPAN

Four years have passed since Japan surrendered and General Douglass MacArthur has given a review of the four years of American occupation. He sees gains in the political consciousness of the Japanese people, recovery in productivity, a high degree of order and what he believes is the emergence of the Japanese "into a notranal and 'peaceful international life," in the Words of the New York Times. If

CANADA NEEDS HEALTHY RAILWAYS TO SERVE HER PEOPLE

Ity Andian church hom been very interested in sailing "britches" over interested in the few renderation when the sail in the few renderation of moory and it to be drawn and the sail in the case of the sail in the sail in the case of the sail in the sail in the case of the sail in the sail in the case of the sail in the s - a lot of passengers

On good days and bad, for business or pleasure, some 41,000,000 passem-gers stepped aboard Canadian trains last year.

They travelled the fantastic total of almost four billion miles. That's over 300 miles each for every man, woman and child in Canada.

woman and child in Canada.

The gigantic task of carrying this
multitude of commuters, vacationists, business people, requires an
army of train evens, trackman, dispatchers, locomotive engineers . . .
and miles of coches, dining cars,
engines . . and mountains of cost,
forests of ties and talegraph poles
i. and 42,000 miles of track . .
altogether a carpital investment of ther a capital investme

Every Canadian depends on rail-roads—not only for travel but also, as freight carriers, to bring him almost everything he eats, wears, dwells in, uses... It amounts to 12 tons a year for every citizen.

The railways EMPLOY a lot of people, too

They paid \$544,000,000 in wages and salaries to over 190,000 Canadians last year. But that's just the beginning of what the railways mean to employment in Canada. Lumberness, factory workses, miners, farmers—men in a hundred occupations—are busy producing things the railways buy. Last year their purchases added up to more than \$440,000,000.

o doctoroco e

This devertiement is one of a series pointing out the milways key jakes pointing out the milways key jakes in Canada's economy, An Cainada's Harpest builders or cillway rolling stock and equipment, this company and its smojoves as directly concerned with the railway industry, edigit modern plants, turns out thousands of railway cars of every type. The company is fully equipped to supply Canada's railways with the latest type assessment and bright cars to meet the growing pends of our expending economy.

SIGNIFICANT DAY FOR GERMANY

Germany, that part of Germany of the west, has been launched on her democratic career. Such a condition is a far cry, from the type of rule to which Germany had been accustomed from her earliest day to the era which brought on the scene and then to his doom, Adolf Hiller. Since 1945, on the scene and offer no on doom, not notice, since 1945, the year of Allied victory, the way has been planned to give the German people a start in the democratic way of life and in the space of little over four years are has been ciganised. From a state which fell a victim to the plotting of aggressors the way has been opened by Allied victory and by interim government to lead the Germans to the realis-

SLOWING DOWN THE PACE

High tension is one of the manifestations of this age of living. "We just keep rushing along in a confused state of over having time to do the things that seem to be pressed in a upon us." says the Monthly Letter of the Royal Bank

ing upon us, "says the anomaly letter of the knowl same which has a message for the business man and others.

The cause of this condition is seen in the fact that "we are midway in transition from an age that was based on the assumption-of-permanence into one where the only certainty is change. We are not highly enough developed to feel comprisable. We are victims of a mounting tension. We have difficulty in relaxing. We feel we are not as quick as we should be in grasping things. We are sensitive and doubtful and in a hurry. Our high-strung nervous systems on a perpetual binge. We have no time for the repose at is necessary if we are to see the stars." Some do not realize that they are under any tension

because their state has become chronic and they are not aware of their condition. However says the Letter, the signs seen by others tell the story 'unnecessary hand-waving and pencil-tapping, wrinkled foreheads, frowns, vacant stares and restlessness."

Worry can wreck the mind which ordinarily can do

owney can week the inmon women dumants of an do-wonders and is a most lilogical thing. It is not legitimate anxiety for there is a certain amount of anxiety of an inevi-table kind, under certain conditions. But the worry the Letter speaks of is not of this class, It is pointed out that the man who realizes he cannot do, be and have all he would like is the man who maintains his balance. Really would like is the man who maintains in somance. Really closely efficiency consists in knowing how to manage one's mind for the well-managed mind means good, hard, client work and one who possesses such a mind knows that hard, efficient work, and the proposed such as mind knows that hard, efficient work, so the proposed such as mind knows that hard, efficient work, so the proposed such as mind knows that hard, efficient work, so the proposed such as a such that proposed is the proposed such that most mental failure comes from monology or from descending to a routine take, the fatter notes.

from descending to a routine take, the Letter notes.

The lesson to all is that the price paid by so many need not be paid at all for what they get out of life. It is shown that people can find excuses for not taking retter they need for they in error look on time taken out for relax-

ation as a total loss.

Relaxation is the need to rebuild energy. Relax at meals, don't gulp down food, is the advice given. Recreation and vacation are important and those who do not take time for these soon or late must find time for illness.

time for these soon or late must find time for liness.

Most effective year-cound release from rush and tension is in the home, the writer of the Letter says. It is a lifeation is the time of the letter says. It is a lifeothers must learn to shuffle off all the unnecessary tasks
and keep the mind free for those that are vital.

Winston Churchill is cited as the example of a man
who in face of great responsibility was sable from his wisdom to say that an adequate report could be given on one

sheet of paper.

Meditation, too, is one of the supreme needs of this meditation, too, is one or the supreme needs of this sge. It brings life into proper focus and "is a sure cure for frazzled nerves." There is need for people to realize limita-tions of physical and mental strength an dto keep within

Peace bath her victories no less renowned than war.

A wise man will make more opportunities than he

JUST FOLKS

By EDGAR A. GUEST (Copyright, 1949, Edgar A. Guest) THE FOOLISH WISE

m't from wise men wisdom comes, but out of the work of fools o won't be bound by the maxims old or held in check by the rules. a daring youth with the will to do and a ques-tioning mind and eye at last succeed by doing the thing which a wise man wouldn't try.

souldn't have worked, but, it didn't they say, when a fool's device succeeds.

many good reasons why, But he stubbornly stuck to the crazy plan which only a fool would try."

Take a backward look o'er the progress made through our own brief span of

our own brief span of years,
And in much we've learned,
and in much we've
and in much we've
fool appears.
For the wise men, knowing
what can't be done, will
cling to the past too
But's fool will dare what a
wise man won't, and
prove that the wise were
wrong.

By Ed Reed OFF THE RECORD

"Til say it's bad luck—he's supposed to be inside

ROAD ACCIDENTS INCREASE

In a time of rising motor vehicle accidents in Ontario during the last half year it is to be noted that in District No. 9 comprising Hastings, Lennor and Addis-No. 9 comprising Hastings, Lennox and Addington, Fron tenac and Prince Edward Counties the increase of acci issue and Prince Edward Counties the increase of auchien over the same period last year of 15.9 per cent is considerably below the average increase across the Portonee of 2.5.6 per cent. The signers are for urban roads and roads in the country. In Hastings County the rise was from 185 to 228 accidents, an increase of 21.5 per cent. The number of accidents in Prince Edward County rose from 25 to 85. In Northmerhand the Increase was slight, from 97 to 103, while in Durham the number was more than double from 48 to 112.

SAFETY FIRST TAUGHT BY TOY SAFETY FIRST TAUGHT BY TOY
A novel sately first toy attracted much attention at
the recent opening in Birmingham of the toy display
organised by the Toy Fair Association of Great Britain. It
consisted of a 40-foot model village, an electrically-driven

consistent or a 40-tool moder valley, an erectrically-driven car and two small diumny children one of whom crosses the road while the other hesitates and is knocked down. Both ear and children are directed by remote control and local authorities are to order collapsible versions of the model for safety first demonstrations at schools. The toy is expected to have considerable overseas demand.

BEFORE DAWN OF HISTORY

DEFORE DAWN OF HISTORY
One of the most rascinating studies is that of trying to
trace the progress of civilization not only in the ancient
would of the East, that in the New World for both have their
wealth of proof of the civilizations which arose in the longdistant ages. There is no doubt today of the rich civilization which at one tien floutished in America. In a
civilization did not consider the civilization of the civilization of the civilization of the civilization of the consideration of the civilization of th

civilization dut not nutrain very early in the humanical contraints of the revealations of the revealations of the revealation of the very early of the revealation of the very early earl n of the East.

continent is not of a recent world but of one "deep in the continents is not of a recent worth out to more used pit of time, surging through great northern forests in the shouts of forgotten wars, leaving the hairs of a swallowed up in the jungles of Guatemala. But showing those wonderful irrigation outlines which turned the alopse of the Andes to culture of flowers and foods that tife world

NEWSPAPER TALKS

Much as we like the newspaper business,
In comparison with some journals we have recently come
across the names of most American papers lack sparkel
and inagination. Take Artica. Nigeria has a miraphate
and inagination. Take Artica. Nigeria has a miraphate
and inagination. Take Artica. Nigeria has a miraphate
like and the state of the state Much as we like the newspaper business, we feel that in comparison with some journals we have recently come across the names of most American papers lack sparkle and imagination. Take Artica. Nigeria has a newspace called "The Truth is Worth More Than a Rum Called "The Truth is Worth More Than a Rum Called "The Truth is Worth More Than a Paul This." And Uganda is enlightened by just Down and I Will Explaint to You." This son, our like the comes out every Wednesday and costs a duarter of a cent.—This Week.

. LILIUM CANDIDUM ..

The Madonna Lity (Lilium Cardidum) has an origin extending to the very earliest times, but its precise nativity is unknown. The ancient Greeks often used the Madonna Lity as a motif in the sculpture of vases.

a Lifes are very fragrant and entrancing and are best planted in early Septembe eliable supplier, and plant about two inches deep. The growth of this bulb is res-ed, its erregreen leaves will dely the winter. Fall planting for all lifes is prefera

Mahad, its everymen leaves will dely the winter. Fall penning for an mon a shished bulls of this lily will grow three to four fact high with six or more him with delphiniums and roses during June and July. GARDEN CULTURE SCRIES

a Canadian Press is exclusively estitled to use for republication of all news despatches credited to it or to The American Press or Reuters, in this investages and also the local news published therein.

WEATHER AND POWER

Man has always the wealpier about him. It is warm or it is cold, or it is mild. There may be run for a cumight in alpitud jaid in the very nature of things man has to accept heat of the property of the property of the property. Not so long sup, scarce more than a week, people were beaking in the warm summer. weather and then came a stansformation. It is seemed as if autumn were really come of though it is still almost haid a month away, min, some of the property of the prop

rain was welcome for it gave a hint that there might yet be sufficient rainfall to build up the water reserves of the Ontario Hydro Electric Commission. So when it rains now it means considerable gain to the water reserves which count so much in maintaining electric light and power. There has been an announcement of the coming of re-

strictions on October 1st, like those imposed last year, as associated with outdoor illumination, the lighting of shop windows and the use of electric heaters in the homes. But there is no blackout forecast.

there is no blackout forecast.
All depends upon the weather which has been unusually dry. Will the change of season bring rains in plenty to prevent power cutoffs? The weather can be a friend indeed for it will help to fill not only the great reservoirs of the Hydro but also the-wells and water courses and will the Hydro but aso the wells and water courses and will prepare the land for a profitable growing season next spring and summer. Can it be that there will be two dry autumns in a row or will the law of change send the rains so much needed before the freeze-up of the northern lakes?

"R" AND THE OYSTER

Perhaps everyone hann's noticed it, but reference to acceptance will reveal the fact that there is an "H" in both and the second of the second Perhaps everyone hasn't noticed it, but reference to calendar will reveal the fact that there is an "R" in

AUTOMOBILE TAXES

In an address at the Canadian National Exhibition In an address at the Canadian National Exhibition, Mr. William A. Weeker, Freddent of the General Motors Corporation of Canada, Ltd., properly emphasized the part played by taxes in the present coste of cars. It is well to keep people reminded just how much they do pay in taxes even if some of these seem hidden. After Weeker states that in a car delivered from the factory for \$2,000, there is \$250 in males and excise taxes alone; that there is \$50 additional taxes in the price of such a car with the control of \$100.00 to \$100 to

MY DOG AND I .

of which I miss the faintest race. his talent are revealed s from mortal minds

This is National Immunization Week in Canada — the swenth annual observance of an event dedicated to the health and lives of the nation's children.

Sponsored by the Health League of Canada, in co-on with official health departments, National Immur ealth League of Canada, in co-operaudo wire concean neutro departments, Autonai immunisa-tion Week is designed to draw the attention of parents that certain diseases of childhood are preventable but, despite this fact, these diseases—diphtheria and whooping cough —are still taking toll among Canadian children. For in-stance, whooping cough took 155 lives in 1948 and diph-theria claimed 85.

theria claimed 85.

The wisdom of proven immunisation procedures—
such as toxold to prevent diphtheria and whooping cough
vaccine to prevent whooping cough— is seen in a steadily
decreasing annual Canadian death 'foll from these two
diseases. but, as the Health League of Canada points out,
the battle will not be won until there are no cales and no

death toll.

Just as smallpox has been wiped out by vaccination, so can diphtheria be eliminated by toxold. In the case of whooping cough, the preventive is a vaccine which provides protection in 30 per cent of all cases, rendering the disease much less severe in the remainder.

disease much less severe in the remainder.

At the same time, man cannot let down the guard against smallpox. The vaccination procedure must be continued if we are to be eigo-continued immunity from what many the continued in the property of the continued in th

Nickel Brings Dollars to Canada

Since more than alorty per cent of the Nickel produced in Canada is sold to the United Stares and other countries, it brings a constant flow of dollars back to Canada. In fact, Canada's Nickel industry is one of our chief sources of U.S. dollars so essential at the present time to maintain our foreign trade and make available products not

These dollars help pay the wages of the 14,000 Nickel employees, and help provide the dollary which make it possible to pay millions in freight to Canadian railways, to buy timber, steel, coal, machinery and supplies amounting to many millions each year.

These millions, flowing into all industries through the length and breadth of Canada, help create jobs for Canadians.

THE INTERNATIONAL NICKEL COMPANY OF CANADA, LIMITED, 25 KING STREET WEST, TORONTO

tian Press is contrained, antitled to use for republication of all never closs credited to it or to The Associated Press or Reuters, in this tiper and also the local news tublicing thereto.

Death of a youthful schoolboy athlete recently from tetanus— lockjaw—as a result of what appeared to be a minor injury, serves to focus attention during National Immunitation Week on the fact that there is a preventive transfer or teams. toxold for tetanus — a preventive which is just as effective as diphtheria toxold.

as depanteria toxoid.

The 15-year-old lad died in hospital two weeks after he had cut his foot on a stone while bathing at a Toronto beach. The cut was less than a quarter of an inch long and was very shallow. He was given immediate attention by life-savers, and in three days the cut had healed.

Despite the fact that tetamus is extremely raw, medi-cal men today more and more are advocating the giring of tetamus toxedd. And, to further this program, medical scenee has developed a triple antique nontaining diph-theris toxedd, whooping cough veccine and tetamus toxedd— —buse giring there-inone profession at one time. Also eliminate the companion of diphtheria and tetamus toxed-cide—and a combination of diphtheria and tetamus tox-cides—and a combination of whooping cough veccine and shabberial rowing.

Brockville store of the same company.

The city council has award-ed the contract for the paving of Cannifton Road from Sixtion Street to College Street to Mr. John Donovan at a cost of \$12,-\$43,00.

The BLACK HORSE "Do You Know" Advisory Panel

who invented glass?

Egyptians living prior, to 3,000 B.C.I At this time they discovered how to make a colored vitreous glaze to cover objects of stone and moulded sand. Centuries later this glaze was made thicker and

was used for inlay and surfacing work. Still later they tried laying it thickly around a shaped core which was afterward removed. In this way were made the first self-standing glass objects.

Do You Know . . . that the earliest glass known , to mankind is Obsidian, a greyish, glassy volcanic rock made by Nature herself?

Do You Know . . . that amazingly enough this natural glass of acid composition differs very little in analysis from our own man-made product?

Do You Knew any interesting and unusual facts? Our "Advisory Pa \$25 for any authenticated readers' submissions if they are usable. All become our property. Write Black Horse Brewery, Station L. Montreal

RAIN MEANS MUCH

Rain has several reactions on man. If he is doing something or planning something which requires him to be outside, he hopes rain will soon cease, so that he may De Guissie, he mopes runn win soon cease, so what he may proceed with his plans in comfort. He knows at heart that those who farm often have occasion to wish for rain so that crops may grow as they should but often he does not think too seriously of that.

think too seriously of that.

However, everyone, to the last man, woman and child can now feel something of the supreme need for rain, not many the suprement of the restrictions and subscotule over a period, everyone today would vote for rain and even endure the failing of the drops with a great sumount of pleasure accommendation of the suprement of the supreme falling of the drops with a great amount of peasure accom-panying whatever discomfort a little rain may cause. The city man has time now to think of the farmer whose bus-ness depends so much on the weather which leaves its mark n the fields as to whether they be wet or whether they

be dry.

7-accustomed to modern day comforts he will feel any
lack of adequate power to light the roads and homes and
operate the industries of the country. That it make him
somewhat more careful of the use of power so that none
be wasted is also desirable.

RICHARD STRAUSS PASSES

THE WORLD STRAUSS FASSES

The world is poore when a great composer passes though the melodies and strains linger on forever but it is an intense satisfaction to have lived in an age which can produce and look upon such a master in this art as Richmond and the strain of the strain which is a such as the strain of the strain which we have been appeared by the strain of the strain

based on one of Bernard Shaw's plays and containing the popular song and walts "My Bern of their chiral plays to the enterThese men have given of their chiral plays to the enterplace and hone to those who have cysteld such much as will never die. This is shown in the programs of radio today which least heavily on the muice of the long ago and recent, past as well as of the present. This if may always do so is of ourse the wish of the great body of radio lisdio so is of ourse the wish of the great body of radio lis-

CHURCHILL KNEW HIS RUSSIA

CHURCHILL ENEW HIS BUSSIA

It was 1848, Russian armise were making their heroleshand against Hitler. Stalin was telling the Western
World that the Comintern had been dissolved. Most of the
rest of us were beiling counselves that Russia had changed,
that "Fapa" Stalin was no longer in the tradition of
Lenin and Marz, but of Peter the Great. With the war
Winston Churchill 'Brought' differently, its would stesph Russia as an aily to save the world from immediate
Winston Churchill' brought of from Hitler. But he did
not delude himself with talk about "Fapa" Stalin or Feter
the Great. On the contrary, he said to his exhibit one day
in 1848 that it would be a "measurelessedness. The British
Galhest minute with Churchill's statement was produced
as Strasbourg the other day by Harold MacMillan, a Conservative member of Fariliament.

servative member of Parliament.

Winston Churchill is sometimes represented as being foor romantic, too much blinded by the glitter and glory of a bygone day. The truth is that no world statesman has looked with such unsentimental clarity and cold realism upon the hard facts of our time.—Ottawa Journal.

We often boast that we are never bored; but we are so scited that we do not perceive how often we bore others. -Rochefoucauld.

LENGTHENING SPAN

TENGUIRENING SPAN

One of the most amazing facts has been revealed in this increased expectancy of life as reported in the builetin of the Metropolitan life. In the vary brief space of four years since the end of the war the average length of life, that is, the expectation of life at brith, of the industrial population of the United States has increased by about two years. Last year the average reached the sul-limb high of 71.0s, according to the experience of the industrial polity-named to the properties of the properties of the state of the properties of the limb light of 71.0s are supported by the properties of the war year 1948, the average length of life has been increasing continuously since 1930.

— It is a striking fact that in less than two decades, the improvement has amounted to 10 years. Going back farth-

improvement has amounted to 10 years. Going back farth-er to 1911-13 when this series of the longevity of the indus-trial population was started, 20½ years have been added to the expectation of life at birth.

the expectation of life a birth.

In ages ago life was not a long. Individuals may have lived to patriarchal years but the life expectancy was brief compared with the expectancy of those born in this middle of the twentieth century. Long ago, there were been succeed to the services with the expectancy of the life of life of

insuits looking timest all their thankitants. In later con-tracts the plague returned but with rawage greatly re-densed. No city in the twentieth century with modern sati-lation has been affected by plagues. of comprehens rande-iself ridst and health measures for communities and later fails and health measures to do with the prevention of such outbreaks as siruck the Middle Age.

The individual today is the heart to not only general measures for community health but also to the widening involsely switch the medical profession has and to the figure and the communities of the communities of the Government of the communities of the communities of the Contracted with the breviety of Hig in many cases in

ing antitation and health.

The property of the in many cases in contrasts of the property of the in many cases in contrasts of the property of the in many cases in contrasts of the property of the interest of people in the older brackets of years today. Life with its lengthening span for so many has made this world a happier place than it was when so many passed away, young in years. In this era preventive measures are surjected in the property of the prope

MORE PROPLE ON LAND IN BRITAIN

Livestock in Britain is on the increase. This is revealed in figures published recently by the Ministry of Agriculture which have taken from the cenars giving farming statistics. These show the position in June of this year for crops and agricultural workers are will as for investock. Compared with a year ago, there are now in the compared with a year ago, there are now despite the subset of the compared with a year ago, there are now of 488,000 more short and the compared with a year ago, there are now to subset of the control of the compared with a work of the control almost 61 million. The census also shows that more people are working on the land. The agricultural labor force expended during the 12 months their review from about 476,000 to more than 750,000. Amount of land under culfivation is now some 10½ million acres. Of this shout million are desired to wheath safety and out a few of the shout million are desired to wheath safety and out of the shout million are considered to wheath safety and out of the should be shoul and 3 % million of temporary pasture.

BACKWARD HUNTER

Briefs From Britain

Laver, Essex, England (CP) — A hen belonging to Andrew Gem-mill was to be sold. But it ran away, and later returned with eight chicks.

Nottingham, England (CP) — Jack Stanley, ex-heavyweight boxer turned public house licen-see, is looking for a hoazer. First an undertaker arrived to measure him for a coffin, then came a wreath for his funeral.

Shamley Green, Surrey, Eng-land (CP)—CShurch congrega-tions are suffering from a disease called "copperitix"—the percent-ag: of copper which make up the verage collection, rays Rev. B. M. Alexander.

Alexander.

Horton Kirby, Kent, England—
(CP)—Puzzled by the school gas lights "signalling in morse code" during the night, nearby residents investigated. They found a thrush trapped in the school, had been switching the light on and off by

alternately hopping on each side Beatty, moving to Peterborough a of the ber operating the lighting few years ago.

Those who attended the funeral

SOIL CONSERVATION DEMONSTRATION

BOIL CONSERVATION DEMONSTRATION The recent "Farm Improvement and Soil Conservation Day" program, held on the Down farm at Brookin furmished proof of the importance of coll conservation. Mighty machines were at so to the farming public as well as others. Fifteen thousand persons attended, the majority of them agriculturists who are keenly alert to the possibilities of modern farming and the place which agriculture will continue to hold in the national economy.

The attendance was one room for and next, many of

continues to noise in the national economy.

The attendance was one of the gratifying aspects of the affair for people came from far and near, many of them from the United Brodern way and with the background of modern scientific developments.

Much thought has been given in these latter years to scientific agriculture and to the great part it is to play in the future. Bering severy nec of man, farming is therefore the chief of industries and none importance.

Fartility of the soil was the thought in mind. 'That is of supreme importance as everyone known. In the that layer of rich soil at the surface the world depoint for list and for its expansion and development. Got the native and for its expansion and development. One of the scale of the soil. There is now the world call for attention to this important matter, which has been emphassed egain and again.

On the farm near Brocklin what might be called affors a mirror took play the space of a few hours of

On the farm near Brooklin what might be called alfrost a miracle took place in the space of a few hours of a September atternoon as those who were present saw object lessons in modern farming. Sciance has come in its full benefit to this oldest of coupations, farming, the basis of civilization and progress.

INDUSTRIAL MIGHT

The vigor which modern Scotland is throwing into the industrial world has been shown during the past veneza in the Glasgow Industries Exhibition. Opened by Her Majesty, the Queen, the exhibition has displayed not been than twenty million dollars worth of Scotlan enterprise. Heraldic signs appeared, among them a great 10 food just Scottish Idon made in aluminute state. Behind was the magnificent secure of "Queensway" and the industrial magnificent secure of "Queensway" and the industrial might of Scotland.

might of Scotland.

That country has always been famous for three great industries, shipbuilding, tweeds and whisty, but these are not the only once that mater. In all 98 different industries were represented by 300 firms, from small firms amploying a handful of workners, in the disablement of the control of the control

great industrial belt.

scale to choose been the first in tan years on a full scale to show the country's industrial growth of the past for year. Three hundred and more new firms have taken up manufacturing in this country.

ERIN GO BBAGH

ERIN GO BRAGH

The owner of the Blarney Stone, a titled gentleman named Sir George C. Colthurst who lives in Blarney Castle, has let it be known that this legendary rule is not for sain. As a result of this decision he'll doubtless be assured of reland's continuing goodwill.

It's difficult, of course, to conceive of Ireland without the Blarney Stone; as difficult, indeed, as to imagine England without Buckingham Paines and there will be a supplementation of the Blarney Stone and the supplementation of the supplementation still are sacred.—Windsor Star.

FIRST LIGHTHOUSE

The first great lighthouse, almost 400 feet high, stood on the island of Pharos, off the coast of Egypt, and was known as one of the seven wonders of the ancient

"Goodbye Mr. Chips"

THEATRE

BELLEVILLE, ONTARIO PAMOUS PLAYERS CANADIAN CORPORATION, LTD.

OFFICE OF

SEPTEMBER 16th., 1949.

MR. and MRS. MOVIEGOER: BELLEVILLE, ONTARIO.

DEAR FRIENDS:

Early in July, both Mrs. Forhan and myself were invited by METRO GOLDWYN MAYER pictures to a private preview of a motion picture entitled "THE STRATTON STORY," with JAMES STEWART and JUNE ALLYSON.

Frankly, we had not heard too much about the picture as it had just been completed, so we were totally unaware of the pleasant surprise which was in store for us.

As we watched 'THE STRATTON STORY" unfold, we became aware of the fact that we were witnessing a truly great motion picture. Here was a picture that reflected all the wonderful emotions of a living-love, loyalty, courage, pathos

Every man will thrill to its tense realistic baseball sequenand every woman will be moved by its tender love story,

It isn't very often that we are willing to publicly state that everyone who sees arpicture will think it's wonderful. In the case of "THE STRATTON STORY", we know that you will heartily agree with us. THE STRATTON STORY" Is more than a motion picture - it is an inspiration to every man,

It will be at this theatre starting Saturday, Sept. 17th. You'll thank us for recommending it to you.

Su Fale

GJ.F./M.C.

MANAGER.

Worst Ship Fire in Century Lives of Officials DEBATE WILL BE Guts Great Lakes Steamer On Last Cruise of Season

> Newcomers to House Passenger Lists Chiefly Claure, Step. 17.—(CP)—Least rever Clauses from make point. Composed of U. S. Tourists North Atlantic alperties will peak Monday in

By TIM DICKSON (Canadian Press Staff Writer)

Toronto, Sept. 17 — (CP) — The worst ship-fire in a century on the Great Lakes gutted the cruite-ship Noronto at its dock in downtown Toronto early today and made its sunken hull the tomb of possibly 130 dead.

sanken hall the tomb of peeably 330 dead.

A has set up an emergrapy moreue in the Horticultural Bullding of the Canadian National Exhibition, Chief Coroner Smirle Lawson estimated dead at 146 in the blaze which started in a C-deck cabin at near the cocktail bax. Some bodies were unrecevered in the submerged C-deck.

Canada Steamulu part in the submerged C-deck.

Canada Steamulu part in the submerged C-deck.

Am. that 226 passengers, firemen and crew were unaccounted for. But they stated this figure would be reduced as unlited survivors turned up.

as unlisted survivors turned up, C.S.L. officials said their solicitor advised them not to release

passengers - mostly from Cleveland, Detroit and other U.S. cities

The flame-driven panic of the blaze, first report debris-filled hull, firemen hauled out burned and broken bodi wrapped them in tarpaulins — sometimes three or four at a time and sent them by police car to the morgue. But the deck where the fire started — one below the main de

was submerged when the 6,993-ton, 36-year-old ship settled by the rn to the bottom of the slip where she had docised at 6 p.m. Friday en route to the Thousand Islands.

Hundreds about escaped by ing into the water to except except by the doctor on the edge in the edge of the edge of

of M Customers MORE Space GREATER Convenience BETTER Banking Service

These are the reasons why your B of M branch here in Belleville has been in such a turmoil during recent months. We have been remodelling it to provide more elbow room for both customers and staff... to speed our service to you and make the surlike to thank you for your indulgence during the period of alterations.

A new safety deposit box yaultmore coupon booths — more tellers — fluorescent lighting , , , these are some of the improvements you will now enjoy when banking at our re-modelled office.

Why not drop in and pay us a neigh-borly call? Look over our premises ... we think you will be just as proud of them as we are.

For the past 106 years, our aim here in Belleville has been to provide the same kind of friendly, helpful bank-ing service we have been giving the people of Canada for more than 131 years.

Don't Waste Electricity

WILL THERE BE

POWER CUTS THIS YEAR?

The demand for Hydro electricity in Ontario is continually on the increase. While power supply conditions may not be as severe as a year ago, a great deal will depend upon the

rainfall during the coming months. It is probable that restrictions in the use of power will become necessary on Oct. 1st,

1949. Therefore, it is essential that everyone avoid all

tional sources of power supply which will be of help. It may be pointed out too, that all reductions in the use of

electricity now, will save water in our storage basins and help avoid cut-offs. More than that, they will mean savings

by seeing that no electricity over which you have control is

wasted and by using your influence with others to do the same. Now is the time to start!

The Commission has arranged for certain limited addi-

REFUSE TO GRANT BOOST THEATRE Dayton, O., Sept. 17 — (AP)— B. F. Goodrich Company Friday offered some 18,000 striking C. I. O. United Rubber Workers an im-FEATURE TIMES

proved pension - insurance plan but refused to grant a fourth wage increase since the end of the war. The Goodrich strike was called three weeks ago. The union de-manded a 25-cent increase above current production — worker av-quary - financed pensions of \$100 a month.

a month.

J. W. Keener, Goodrich vice-president, said the company is offering a benefit program which would cost 10 cents an hour for such employes.

NORONIC TRAGEDY

NOBONIC TRACEDY
Fate's heavy blow at the Noronic and her ill-starred passenger list in the holocaust which destroyed a great iner and wiped out the lives of a very large number of passengers who were on the last cruise of the summer season. The tragedy of Saturday morning shocked not only this continent but every part of the world for the foll was the continent but every part of the world for the foll was the continent but every part of the world for the foll was the continent but every part of the world for the following the continent but any and reached the magnitude of some of those shipping disasters which are sometimes reported from the Far East seas.

The sense of pity is felt by people everywhere for the tragic fate which befell so many of the passengers. Man has an instinctive dread of fire because it has been one of his worst enemies all through the course of history from earliest ages of the world to the latest date in the cal-ar. It still remains a threat to property and human life

in syle of safety measures and precautions.

Those who passed through the tragedy at the Toronto pler will carry memories scared by the horros of the disaster. Such feelings are natural for everyone knows something of experience with fire. This sense will last throughout the rest of the lives of the survivors.

out the rest of the lives of the survivors.

The heavy lost of life everywhere called out the profound sense of pity for suffering humanity. That feeling is the most natural emotion by reason of the helplesenses in which so many suddenly found themselves with the ship after. In this fire many of the victims could not have had any inkling of the fate that was in store for them as many re perhaps suffocated and burned as they slept in their

ALERT TO PREVENTING ACCIDENTS

Three piled up in the first eight months of the year a total of 489 deaths on Ontario highways, streets and roads. August took 49 lives, exactly the same as August 1948 but the eight-month death list is the highest recordad. One tragedy claimed five lives at a level crossing of the radiway track and that same day two others died at an-other crossing. In ten other accidents there were two

re is in the hands of all who use the highways in There is in the hands of all who use the highways in whaterer manner a chance to keep down the totals which will be reached by the end of the year. With every individual driver or pedestrian on the highways alter to the prevention of accidents from whatever source it should be possible to show a diminution of the total of fastilities. The increase in the number of these unfortunal-events cannot be given because the south of the properties o

CONSERVATION

The appreciation of the fact that there There is a growing appreciation of the fact that there is wisdom in the appeals made for conservation of the resources of the country. Emphasis is being laid on the rational use of the gifts of nature. A country without forests of some kind would be inconservable. Some proof of this is seen in the care which is being taken to keep up the for-ests, which help to provide means of retaining the water in the soil, thus saving it for times of drought or shortage of

Danger lies in the view that resources of the earth are unlimited. That view can cause wanton waste of the wealth

of the soil, the waters and the rocks.

The Ontario Hydro wisely lays stress on the importance of maintaining forests and takes no small interest in reforestation, this being one of the two activities of the Commission. This organization knows how dependent it is on the amount of water stored up in its reservoirs and how forest lands prevent the loss of moisture. One of the Com-mission's interests is to add the protection trees afford so that there may be large resources and reserves of moisin the country.

In Toronio Have Drama, Color In the property of the property FIGHT TOOTH DECAY AND GUM TROUBLES

New dental research proves you can help prevent tooth decay as you guard your gums—this doubly-effective Ipana way!

DENTISTS SAY THE IPANA WAY PROMOTES HEALTHIER GUMS!

DENTAL RESEARCH SHOWS

Dentists warn that if you want to save your teeth, you must protect your teeth and gums both. For not only does tooth decay cause untold misery and expense.

Gum troubles cause even more tooth losses than decay, according to leading dental authorities. And gum troubles can strike anyone—even healthy youngsters and teen-agers—with little warning!

Now you and your family can help prevent tooth decay and gum troubles BOTH—with doubly-effective Ipana dental care.

For new dental research now proves that Ipana's own special formula effectively reduces and keeps down acid-forming bacteria—considered a major cause of tooth decay. Ipana fully meets these standards for an anti-decay dentifrice,

And more—Ipana is the only leading tooth paste specially designed to stimulate gum circulation-promote healthier gums.

HERE'S THE DENTIST-APPROVED IPANA WAY - EASY AS 1, 2:

PANA for Both! HEALTHIER TEETH.

HEALTHIER GUMS

Mrs. Stephen Schwertz of Catonsvills, Md., doesn't let her family risk halfway dental carel One of Baltimore's most successful fashion models, Mrs. Schwarts knows that an attractive smile depends on bealthy teeth and healthy gunna fock. So sho makes sure her family fights doesy and protects their guns, too—the Janas way. Give your family the same doubly-affective dental care. Get ipma today!

THIS FAMILY SAFEGUARDS TEETH AND GUMS BOTH WITH IPANA DENTAL CARE!

Mackenzie's Column Japanese Treaty May be Concluded Without Russia

By DeWITT MACKENZIE (Associated Press News Analysi)

(Associated Press News Analyst)

The urgency of concluding a

Japanese treaty has developed the
startling possibility that the democracles may get ahead with
the job without Russia, unless a
quick solution of the disagreement with Moscow can be found.
Should this happen it would of
course mean two distinct treatless.

course man two distinct treat. The sistensies being on Nu-sia. In sistensies being on Nu-sia's indiance that the treaty be-suited by the Big Tour Fac-ciality of the Number of Number of Number of Number of Number to Number of Number

SEPTEMBER 1940 RECALLED

In those memorable weeks of September 1940 time did not move very swiftly for they were days and nights of amilety for the battle of Britain was on in deadly earnest, and the end of this German attempt to dominate the skies over the "tight little isle" was at hand. On the fifteenth of this month that year 185 enemy aircraft were shot down by the R.A.F., that was one of the marks or signs that Ger-many was doomed to defeat, even though she was to carry

many was doubted to teleat, even studied as was to early on the war for five years more.

The enemy plans were to stuke down British air power.

Mr. Churchill accepted the German threat for he bespoke the British people whom he knew so well. He said "we shall fight in the fleids and in the streets . . we shall never jaurender." They did not yield.

That defeat of the Germans in the air was the defeat That cureat or the Germans in the air was the defeat of and threat to their whole purpose to destroy this defence "of the British people—the air over girtain. In those days Britons fought for what they knew was their freedom and that of the world, British spirit triumphed, Finally the Germans gave up their targets and the Battle of Britain had been won by the RA.B."

Corransa gave up their targets and the Battle of British challed now now by the RA.P.

Indee been won by the RA.P.

Since that day time has more awithy until now nine British that the British t time Canadian firemen who went overseas played their part

in Britain's defence.

Never shall the glory fade of those days. It will live as long as civilization lasts.

SEASON'S CHANGE

At last autumn is mering, soon after Labor Day which practically marks the end of the holiday season. On Thursday September 23rd., at 4.06 a.m. the seasons change.
What will this autumn be like? Last winter surprised.

What will this saturum be lare? Last winter surprised people with its gentle close, spring came a little late and with less of the usual showers and summer has been well known for the hottest and driest mid-year season for years. Last autumn became known for the shortage of power due to lack of rains in the summer and early suturum. Will this autumn of 1949 bring rains in its early weeks to swell the waters in the northern reservoirs which the Hydro taps as

waters in the function reserves which in the source of electric energy?

These questions show how dependent upon the weather is man. It is one of the great factors by which men live. For they are creatures of the inheritance which the earth and its th and its seasons provide.

The next few weeks will see beginning that annual

display of nature as the colors change. The great transfor-mation which the advancing days bring creates new scenes of splendor in the northern woods. Mellowness enters into the fruit of the trees and the vegetables of the fields and the fruit of the trees and the vegetables of the fields and then the woods, according to Byrand, become glorious "in their latest gold and crimson." It is the season, paints forever in that ode by Keats to "Autumn" when he paints the season as the "close bosons friend of the maturing out." Autumn, maing its appearance of the maturing out." whole gaunt of rich grant of the contraction of the whole gaunt of rich was a season of mist and mellow fruit-fulness."

PRESENCE OF MIND

PRESENCE OF MIND

Presence of mind is not a characteristic possessed by beery person. Taxicab driver Norman Matte, of Windsor, is fortunate he had a quick idea; to rlip the switch on his cab radie so his office could learn he was in the toils of hiddup men. This enabled fast work by the police, to rescue him and many hands of the country of the police. him and grab two of the men. (The third surrendered to

practically unanimou

You can still find people who "don't believe in banks" . . . who keep their cash in old coffee pots, or hide it in the woodpile, or carry it around.

But most folk nowadays keep their money in bank accounts. They can get it whenever they want it; and they can pay their bills by cheque. Canadians have more than seven million such deposit accounts. In terms of Canada's adult population, that makes it practically unanimous.

The banks, in turn, know they must earn this confidence by giving you the best service they know how.

Today you can take your account to any bank you choose. And what is in your bank book is strictly between you and your bank. It is your own private business.

mountains and gems, in vegetables and clay, in meat and water — practically everywhere.

Long ago the Romans knew it as a saft. They called it "always did as a medicine or for dyeing cloth.

Until the middle 1800's, the metal aluminum was rarer ar more costly than gold. Napoleon III had his own personal tableware made of it.

Modern science found a way to make it cheaper. That is why, too everybody can buy useful and lasting articles made of aluminum.

In Canada we have none of the high-grade aluminum ore called "bauxite". Canadians bring it in by shipload from British Guiana — a voyage of 3000 miles.

Northeastern Canada has the world's largest aluminum Alcan boilt it there, at Arrida. This site was chosen because it is close to both a port for ocean ships bringing boustes and an abundant source of hydro-electric power.

Until Alcan harnessed this water power, it ran to a Smelting aluminum needs vast supplies of power. The electricity required to produce one ton of aluminum would light your house for fifteen years.

More than 15,000 people operate this Canadian Industry. They sorn more than thirty-five million dollars These cornings flow across Canadia.

ad.

Alcan does market so much abroad, it is able seg-ninum in such large quantities that, in ingot form, is no rehased more cheaply in Canada than anywhere else

three hits.

Henn Gets Two

By RALPH RODEN sciated Press, Sport Writer) The knock - down - and - dreg-out battle being waged by St. Louis Cardinals - and Brooklyn Dodgers for the National League pennant comes to a head today when the arch rivals open a 3-Games to play: St. Louis (10); Brooklyn (9). Tuesday: Philadelphia Louis 7; Brooklyn 5, Ch Boston 4, Pittsburgh 2.

Wednesday: Brooklyn-St. Louis (2, D. N.) Boston-Pittsburgh (N); New York-Cincinnati (2); Phil-adelphia-Chicago (2). game series in St. Louis.

game series in St. Louis.
Both combatants tuned up Tuesday for their climactic series with
victories. The Cards knocked off
Philadelphia Phillies 7-5 and the
Dodgers sacked Chicago Cobs 5-0
to remain 1½ games behind the
Redbirds.

played under the lights winter row.

The Dodgers, in order to take over the lead, must sweep the series. Should they accomplish this feat they will head home with a lifegame lead. If the Cards win all three games they will boast a 4½-game advantage and Dodger fans once again would be saying "Walt until next year."

advantage and Dodger fans once saying "Wat under 10 met year." A day after the Cards and Dodger consuled their serap a Dodgero consuled their serap a piace New York Yankees and the runner-up Boston Red Sax hegias in the American League, so the Sax hegis of the

WE CAN SUPPLY THE MATERIAL OR INSTALL YOUR JOB COMPLETE

In towns and cities across the country, Canada's Citizen-Soldier is enthusiastically engaged in an all-important job. The spare evenings he devotes to training help to assure the well-being of Canada, because the Reserve Force forms an important part of this country's defence forces.

The new Reserve Force offers many personal advantages: trade and technical training; Active Service rates of pay for time spent in training and summer camp; a full programme of sports and social events for men who get a kick out of working together.

Visit the Regiment or armoury of your choice for complete details.
You can help yourself and Canada by joining the Reserve Force.

JOIN THE RESERVE FORCE NOW!

BARRISTER HELD

Toronto, Sept. 21 — (CP) —
Samuel Jerman, 42, Toronto barrister, was arrested here Monday
night on a charge of theft of \$5,200. Police say Jerman obtained
the money from a client, Charles
Tugwell, in real estate transactions. Ball of \$2,000 was provided.

There should be Immunization Week every week in the minds of the members of the Canadian Medical Associa-tion. An official C.M.A. statement pointed out that National Immunisation Week was a short intensive drive spon-sorted by the Health League of Canada to acquaint the public with the excellent work being done by the associa-

public with the excellent work being done by the associa-tion, While it was for only one week it is not intended to be "We all need to be reminded again and again tast "We all need to be reminded again and again tast analipor and diphiberia, telamus and whooping cough on certainly be prevented by immunication and that several other communicable diseases can be modified to render them harmless," says the statement. "These face have been so well demonstrated in Canada that we are up to

been so well demonstrated in Canada that we are apt to assume that the diseases thereaviers have been eliminated. This is not the case, and it is only by eternal vigilance and by practice of the simple procedure of immunisation that these conditions are not sources again." Of course immunisation does not come automatically and by any legal act but it requires the participation of and active immunisating substances. All of these require-ients are in abundance and it is only sensible to use them effectively. May 1 Ind., 1979
Mr. W. P. Dompsy of Chicago, Ill., an old Bollsville boy. We had been some property of the control of the con

effectively.

Doctors across Canada Join with the Health League in reminding the public that every week is Immunization Week and that the health acroices are ready to help individuals and families to apply the measures of prevention, thoug gift of study and research, which are available. This generation and age are especially bleased that they live in or other week fidences in the conference that greatest hope two others week fidences in the conference than greatest hope to other week fidences in the conference that greatest hope to other week fidences in the conference that the conference is not conference to the conference that the conference is not conference to the conference that the conference is not conference to the conference that the conference is not conference to the conference to the conference that th for other great discoveries to come

DRAW LARGE CROWDS

Autumn fairs this year have been having successful times in all parts of the country. There can be no doubt that the people fully realize the importance of these exhibitions in the national life. There was a time when success was not so marked but whatever the reasons in this age they are among the most prominent institutions. None are suddenly rooted in the soil as the fall fair and they are living institutions because they reach and appeal to every

widual.

After all, that is what the fair ought to be, a vital part
the national and the community life and as well an
ex of the importance of farming in Ontario and other

parts of Canada.

On all sides is the sign of the healthy static of the fairs of Onlario, urban and rural people are supporting them because they are so tidal to the lives of the people as individuals and as a nation of individuals.

Nothing is closer to the heart of the people than these animal festivals held by the hundreds everywhere in the Dominion.

The quality of exhibits is high and offers the greatest

The quality of exhibits is high and offers the greatest necouragement to the boards that their work is being understood by the people in town and country. This great popularity of the fairs, proven by the increased crowds, does not appear to be a matter of the moment but rather something that is vital because it is autumn exhibitions and the communities they represent. These stock and produce, fine exhibits in the various including shows which, are part of the fairs, draw their thousands of men, women and children and please them and estably them. It is not only the midway but the scores of other appears which are so much a part of these shows which are so much a part of these shows which are so much a part of these shows which are so much a part of these shows which are so much a part of these shows which are so much a part of these shows which are so much a part of these shows which are so much a part of these shows which are so much a part of the safe and the size of the size of the safe of urban centres.

Now at your store for the very first time!

GREAT NEW DREF

Completely NEW...with great new benefits

SEE the difference!

- See Dreft's amazing new suds in action! New Dreft goes 40% further...washes 40% more dishes! New, extra value!
- See how clean Dreft washes dishes! So clean they shine—even without wiping!
- See how grease vanishes. New Dreft cuts grease better than any soap in the world.

FEEL the difference!

- Feel Dreft's amazing new beauty mildness! The mildest Dreft suds ever!
- Feel the dishwater! How clean and "grease-free!" New Dreft suds are different than any soap in the world!
- Feel! Even the sink is clean! No ring. No dirt. No scum.

better than ever

New DREFT & makes dishes SHINE even without wiping!

- THE PROGRAM -All Trill The second part at the Arena will be compacted from the second part at the Koyal Canada Racineral of the Koyal Canada 2nd Part-O CANADA, and THE FARS AND STRIPES FOREVER, by John Philip Scare. Following this, individual numbers will be offered by each of the three bands, inter-sparsed by soloists from each band. ACLUST A distinct properly will be detered by the gold of the properly of the The Grand Finale-INE Grand Finale Tool, 1970, 1

MONDAY, SEPT. 26 — 8.30 P.M.

This will be one of the most memorable musical events in the history of Belleville, and citizans of Belleville and district are urged to attend. Sponsored by the Belleville Municipal Band, the event is staged particularly to draw to the attention of everyone what an important part your band plays in the life of pure community.

Bands Parade Down Front St.

Previous to the opening of the program in the Arena, the bands will parade from the Upper Bridge, down Front Street to the Market Square, from where they will march into the Arena. Bands will parade singly, leaving the Upper Bridge at five-minute intervals.

Master of Ceremonies: PROF. C. F. THIELE, of Waterloo Originator of the Waterloo Musical Festival, the biggest event of its kind in musical circles on the North American Continent.

Movie Column

By BOB THOMAS

By BOR THOMAS.
Hollywood, Sept. 22 - '(AP) —
Why is there so much divorce in
Hollywood?
If anyone knows the answer, it
should be the film famous themselves. So the AP Hollywood forum put the query to them, with
these results:

SAFEGUARDING HERALTH AND LIFE

SAFEGUARDING HERALTH AND LIFE
minimization against preventable diseases last year in the
frowince of Ontario, the Ontario Minister of Realth, Ron.
Hussell T. Kelly, stated recently. His Department new distributes to physicians and local Roomen in the Minister of Realth, Ron.
Hussell T. Kelly, stated recently. His Department new distributes to physicians and local Roomen in the Conleg cough and trainus, all of which can be given in one
injection. The incidence of diphtheria is dropping, but continued vigilance is required. As for smallpox Ontario has
not had a case in ten years. However vaccination is still as
note had a case in ten years. However vaccination is still as
notessity and it is only eternal vigilance at the nation's
ports of duty that prevented the introduction of smallpox
from foreign countries where it is always present. The
manufacture is a seven of the average are enough to make necessay the introduction of telauna toxed into the privincial
hasalth department's regular immunisation program.

In diphteria during 1946 case and death rate, says
the minister reached a new high for a 10-year period with
during the first seven months of 1948 there were only 45
cases with but four deaths. SAFEGUARDING HEALTH AND LIFE

during the first seven mont cases with but four deaths.

NORTH GROWING WARMER?

NORTH GROWING WARMER!

It the northern world growing warmer? For some time
there are indications that it is warming up. The latest area
to receive attention for greater heat which has been experienced for some years is the Camadian West and the
pince is where the Alberts gatesters are An engineer has treported that the glaciers are shrinking. Measurements
taken by the government in 1648 and later would indicate
thes shrinking of these great for rivers at they fit
The rate is said to have been an average of 100 feet a

This is not the only reference of recent times to the warmer condition of the north. It has been marked by other scientists who have been speculating if the climate

either scientists who have been speculating II the climats is really changed, times there was really an intensely cold service upons a time there was really an intensely cold to the service was really an intensely cold to the service was really an intensely cold to see 60th parallel and a wast northern tract of Europe were under an ice cap which covered what is now ocean and the polar parts of the continents. Rocks are grooved and show other unmistakable evidence of the movement of gladers in the ages following the ice age electrical who have the markings on the rocks and the deposits of decayed rock as indications.

markings on the rocks and the appears or accessor the mindications.

For the good of the sext hat the opening of the glacial period most of the land surface over which the ice adjusted most of the land surface over which the ice adjusted the land of the land

terminal morature. Appraind is an inter-glacial period.

Some say this parties is an inter-glacial period.
The greater warmth of the past few years has been suggesting to some that may be the beginning of a new age. But this is all speculation, yet acknowledges giving its attention to the condition.

HUMAN ELEMENT

And always, of course, and regardless of what science brings, there will remain the human element; the human mind and physical being which, whether behind the wheel of an automobile, the throttle of a sailway engine, or the controls of an arignae, are subject to error. He was the sail the sail the sail that t

- The largest & most Brilliant Tulip -

THE WARM SOFT SHOWERS ARE FALLING FROM APRIL'S CLOUDY SKIES; THE LOVELY BLOOMS OF TULIPS SHIPS OUT THEIR BRIGHT SURPRISE.

"TULIPA FOSTERIANA"

The origin of this is not known, but by the end of the 10th century they were being extensively grown in Heliand. Through the centure the Dutch hesticulturals have developed as assainling list of types and varieties. There are taigle and depulse approxy trilly which flowers in early May, Mendell, Arrait and the gargeons ineq-stemmed Darwin taigs which extend the flowering assain until mid-line. The lowey Remberds and Peret to high or higher large in the May are the state of the principle of the principle of the principle of the state of the principle of the principle

Above is illustrated the magnificent Red Emperor, showing the buds at opening stage. This tulip has stem
18 inches long and immense beilling red flowers, since to ten inches acress.

shitched 1941 — intelligencer. Established Daily by the ... NTARIO INTELLIGENCER LIMITED

Canadian Press is exclusively entitled to use for republication of all news despatches credited to it or to The Associated Press or Reuters, in this newspaper and also the local news published therein.

SLEEPING GARB

It is said as a result of surveys in the United States and Britain that pylamsa are showing a tendency to re-placement by three-quarter length "sleeping coats." Those who have stuck to the old nightgown claim for it great comfort as a result of the possibility of greater freedom of the sleeper in his loosing or twisting during the night's

size.

One editor thinks that Canadians will stick to pylamas, rather than diseard them for the older style of an abbreviated sleeping coat, He argues that a good pair of very roomy pylamas is a good defence against the cold night of winter.

There are those who have consistently stayed with the cld-style nightgown and of these it is seemingly impossible to change even a few.

RELICS OF VANISHED RACE

RELICS OF VANISHED RACE
Britons like others are deeply interested in the problems of anthropology and of the ancient races of men who
inhabited the earth. They may have now solved one of the
outstanding riddles of the science of man's development on
earth and have established the tirue age of the Pildown
skull. This prehistoric human relic was found in Britonabout forty past the ward. It was the possessor of a large
brain pan of human character and had been estimated to
be half a million years old.

brain pan of numan cnaracter and had been established to be half a million years old. This theory was recently refuted by the head of the Natural History Department of the British Museum, Dr. Oakley, at a conference of the British Association for the Advancement of Science attended by two thousand scien-

There are many questions which this study a There are many questions which this study arouses, one of which has to do with that great blossoming of the human race and its emergence from the hidden past into the light of ages comparatively recent, which saw the great upheaval of peoples in Southern and Western Asia where archeologists are still digging and unearthing evi-

where archeologists are sain deging dences of great civilizations. The Filtdown skull of course has provoked more con-ditional course of the first state of the course of the lit was found in Sussex in 1911-12, many British scientists having called this type the dawn man.

ROMANCE IN STORY OF MEDICINE

ROMANCE IN STORY OF MEDICINE

Doubliess there never was an age in which the public is reading in the press so much about the progress in medicine. The frontiers which it has crossed up is about to cross are matters of vital interest to the great bulk of the

people.

This popularization of the subject of medical progress is a mark of the times in which medicine steadily makes its way forward. As this science conquers new territories, the health of the community improves.

Its story reads like romance which has a happiler ending, for it carries improvement in public and personal

Medicine and health are breaking new land, they have crossed long since the old boundaries. On the subject of the "ironitiers only being large with the subject of the "ironitiers of the large large

MAN AND BEAST

f men were but for flesh designed On other flesh to prey, enled the gifts of soul and Since nothing further they'd require
Than daily food and drink,
On earth there'd be no temple spire,
For none of God would think.

Then like the beasts were they. As jungle creatures they would dwell In cave and lair and den. den,
But they would neither buy
nor sell
As is the way of
men.

But men were given mind and soul That some could learn and teach,

And some could glimpse a far-off goal They d gladly die to reach,

you are my favorite unch GLEANINGS FROM OUR FYLES OF BY-GONE YEARS

SISTERS ALI . By Jean Love Galloway

Everyoody is interested in the other jesselly a certain amount to since the his own. But there is usually a certain amount conjecture about what the other chap is making . . . Seldom do actually know. In this country, there has developed a fibely-interest attitude on the part of rich and poer alike, concerning their part of rich and poer alike, concerning their packages—an attitude which has woven itself into the very fit of the Canadian character.

All of us have an innate curiosity too, as to what the big brait

of the nation make. That is why a press report of a few actual squaries recently made a choice bit of conversation over the sausages at dinner . . Robert C. Stanley makes a cool \$214,000 a ear, according to the report.

year, according to the report.

No, Mr. Stately int't the top one executive of the Canadian government with the responsibility of 12 million people on his aboulders.

He is president of the international Nickel Company . The Canadian Prime Minister's annual salary cheeue is \$21,000, with to read-dence provided, as it is for the U. K. Prime Minister and the Presidence of the Company of the Canadian Company is the Canadian Company of th dent of the U. S.

dent of the U. S.

And when you come to think about it, Mr. Stanley with his
\$214,000, makes twice as much as President Truman. J. M. Pitchard
of McColl Frontene, is considered worth \$50,000 a year to his firm

Graham Towers, president of the Sank of Canada, makes
\$30,000 a year. Head of the National Bookey League, Clarence
Campbell ets \$30,000, or about the same as Canada's Prime Minister.

Campbell get \$30,000, or about hie same as Canada's Prime Minister. A few Canadian orchestra leaders make \$35,000 a year, as do some of the men and women radio commentators. One point is be-coming clearer seed, year—"talk the new young brains of Canada are finding public service unfruitful and are turning to the more horative fields in industry and commerce.

into the bathwater. This softens the water and she says the tub comes out as clean and shiny as you'd ever hope to see it . . . "We've been tubbing this way for months and still have our skins." .
Well, that looks like another wife-saver. Whether Uncle Fronts
would submit to it is something else again.

Uncle Frontenac says he sees by the paper that most birds sing

only while on the wing, or when perched on some elsewated object.

He says it's the same with most people,

A-ENERGY WORLD NEWS AGAIN

News of atomic energy has twice come upon the world the past four years, first when Britain and the United States announced in the summer of May that they had achieved the quest of the ages, the control of atomic energy and bombs had been made.

and comes and ocen made.

Again news, of the progress of knowledge of atomic energy came to the world, this time last Friday, when President Truman announced that there had definitely been an atomic explosion in Russia in recent weeks. He added to this bare statement that the British and Americans had expected that in time the Russians would learn the secret

superiod that in time the Russians would learn the secret release of some control of the control

nations it can be unless it is controlled.

In the intervening years since Hirochima the world has heard much of atomic energy and its use. It has seen the effects of the tests made on a Pacific island. Any tatk of industrial use of the power of the atom has hinted that that time was far away. Now the world has before it what the A-bomb can do and hence the seriousness with which

the A-bomb can do and hence the seriousness with which man heard the news e few days ago. Representatives of the British and American govern-ments have said that they expected that sooner or later the secret would come out and hence to some there was less surprise than might have been otherwise. Yet the in-terest in atomic development and atomic control has been intense. The President's statement was one of the utimost intense. The President's statement was one of the utimost intense. The President's statement was one of the utimost intense. The President's statement was one of the utimost intense. The President's statement was one of the utimost the standpoint of public concern. The latest news electified the world. the world.

Americans and Britons have made clear that they ex-

Americans and Britons nave misso exert that tary ex-pected it was only a matter of time before the Russians would reach a solution of the atomic secret.

There has been a great deal of discussion in the past few days as to what Russia has discovered. Was the explo-sion an accidental blast and has. Russia achieved the matter of the accidental blast and has. Russia achieved the

making of an A-bomb?

It is said the United States has a great lead over Russis in the making of the bomb, even if Russia has achieved a

in the making of the bomb, even if Russia has achieved a bomb weapon. So atomic energy is again before the world spith an intensity which perhaps will exceed that of the first news intensity which perhaps will exceed that of the first news and the second of the second

HARVEST

Another harvest season is nearing its end. Harvesting is about finished in Manitoba, nears completion in Sax atchewan and is well advanced in parts of Alberta, asp the Bank of Montreal crop report. There has been some frost

damage in Alberta.

The wheat crop according to the second estimate of the Dominion Bureau of statistics will argount to 342,000.

Old bunklet, which is 21,000,000 test than last year's cluster. It is a statistic to Control Victional of the Control Victional Operation of the Control Viction of th

some districts good germination is reported. Harvesting of corn is in progress, with better than average returns expected, except in a few central and some eastern areas.

A variable crop of canning tomatoes is being processed. Indications are that the production of potatoes will be below normal. Sugar beets are nearing maturity and a large

low normal. Sugar beets are nearing maturity and a large crop is in prospect. Turnips are port. Pears and plums are yielding well. Peach trees were heavily laden, but, due to marketing difficulties and a shortage of baskets, part of the crop may be lost. The out-look for late apples continues promising, notwithstanding the-heavy drop caused by high winds.

. From then on I felt sure there was criminal action involved. I spent a full day phoning every person I figured had anything to do with this mystery.

Then I was ready to write my first story about the sabotage of the plane.

Sports Roundup

By HUGH FULLERTON, Jr. New York, Sept. 28 (AP)—Al-lough your Major-League base-all player these days is some-hat more learned than his old-

By Jimmy Hatlo.

When the national "fast leagues moved its pitchers 45 feet from the plate, the ateur Softbell Association it 46 feet. Now the fastball think they'll go to 47 next son to improve the hitting-don't they ret a hard hall

CANADA PRODUCES WHEAT FOR ALL THE WORLD

Why Seagram's sells Canada first

of a series created by The House of Scagram to tell the peoples of other lands about Canada and her various products. For the past two years this campaign has been appearing in newspapers and magazines printed in many

languages and circulated throughout the world. Our prosperity is based on our

ability to sell our products to other countries. Every Canadian has a personal stake in foreign trade, for one out of every three dollars of Canada's national income results from our trade abroad. The more

that the peoples of other countries know of the quality, variety and prestige of our products, the more likely they are to buy from us.

We feel that the horizon of industry does not terminate at the boundary line of its plants; it has a broader horizon, a farther view-this view embraces the entire Dominion. That is why The House of Seagram believes that it is in the interest of every Canadian manufacturer to help the sale of all Canadian products in foreign markets. It is in this spirit

that these advertisements are being published throughout the world.

on Press is explanively entitled to use for republication of all new sec credited to it or to The Associated Press of Reuters, in this per and size the local news published thresh.

Already by are at it, forecasting the winter ahead.
A frow; in the press the other day stated that the deer in the northern ewode of Michigan have already their winter costs and wild ducks are flying about, moving restlessly in preparation for the southern flight that takes them away from the northern cold. The migrations and the putting of the winter costs by the deer are said to be manifestations earlier than urnal as to what the winter may be.

There is one certainty about it, that time will loal as it always does. It is one matter which will, not be left in doubt.

who, Most people take the weather in its stride as it comes ad accept it graciously whether the winter be severe mild and do not worry what the future will bring forth me read the signs in the flight of birds, the thickness of

Some read the signs in the light of unra, the unkness of the fur of animals and other the decisions to learn the mild-ness or severity of the winter ahead. There is one assurance that "when winter comes, can spring be far behind?" It was a post who said that and that is about as far as some people care to go for it is the said is about as far as some people care to go for it is the

ETERNAL VIGILANCE

Motorists and other operators of motor vehicles on the ingleways have had something to think about in the fate of the driver of a truck, who had a record for lack of accidents which was a proud one and worthy of the effort of everyone to try to repeat. He had driver 450,000 miles on the highways and roads and for ten years had not even had the engagestion of a scratch on his truck by an accident. Yet this good driver, the best his firm ever had, was killed not long ago as he drove on to a rulway crossing behind a standing freight and was struck and dilute as the contract of the contr

driving and safety.

THE PAST DISCLOSED

People who lose articles now and then can wonder at the fact that acrolls thousands of years old have been found in a care by a shepherd not far from the Red Sea. Due of the marvels of the study of archaeology is the vast amount of material thousands upon thousands of years old which is coming to light with excavations carried out eld which is coming to light with excarations carried on a cientific manner. How could documents last so many years when everyone today knows how firall are some of the things of this present age, which would not weather the storms of many generations let alone centuries.

'Yet in the Orient are coming to light the evidences of great civilizations not long age thought mon-existent. World of real romance and truth is coming to high!

The recent find in the cave is of anothers manner than the contract of th

the Scirphures which had been sealed in jars and hidden poterity in the Gesert's keeping.
This modern world is on the lookout for evidence of earlier eras and here they have sumicant proof. There parchments of Biblical writings which are believed of greatest importance. There are other acrolls which are not extend that the summary of the sealer which are not sealer than the summary of the sealer portions of Genatic, utercomory, Judges, Leviticus and Denicl. They are be-refe to be the extention and one of the sealer of the seale

original Hebrew to be found. Such finds in Asia Minor and the Near East are open up the secrets of the rise of civilization and religion in lands from Inda to the Mediterranean.

any up the secrets of the rise of civilization and religion in the hands from Innian to the Mediterramean.

\$200,000,000 NEW CONSTRUCTION ... and more to come! COLUMN TO SERVICE STATE OF THE PARTY OF THE

IN THE PAST four years we added more than half a million telephones and installed new equipment in every exchange in Ontario and Quebec. At the same time we were able to make substantial improvements in service. But it took a lot of money, over two hundred million dollars!

There remains much to be done! Many applicants are still waiting for telephone service, and many more subscribers' present service is not adequate to their needs. We intend to meet their wishes, and to continué making the service clearer, faster, better in every way.

This will take more millions for new equipment and buildings. As in the past, this money must come from the savings of thousands of Canadians who are willing to invest in the telephone business.

The BLACK HORSE "Do You Know" Advisory Panel

o You now...

> how far birds fly to migrate?

Every year, at certain times, millions of birds in every part of the world suddenly take wing and fly varying distances to foreign climes. No one yet has been able to satisfactorily determine the prime impulse of these migrations and to fathom the great mystery of its accomplishment.

Do You Know . . . that the Arctic Tern nests within the Arctic Circle and then files over more than 10,000 miles of ocean to winter on the Islands of the Antarcticl ... that the Grey Plover breeds in the Arctic Circle and winters in equ

tal countriest . . . that swallows ringed in Great Britain have to countriest . . . that swallows ringed in Great Britain have to

De You Knew ... that migrants usually fly at under 3,000 feet?... that the average distance flown in a day is 200 miles, even though the Z full flight may be thousands of miles? . . . that

many species manage to cross these enormous distances without a break! . . . that even young birds, making the trip for the first time, make the flight unerringly, without guidance from the older birds!

Do Yee Know any Interesting and ownsuch facts? Our "Advisory Panel" will pay \$25 for any authenticated readers' submissions if they are unable. All letters become our property. Write Black Horse Brewery, Station L. Montreal, P.G.

Three days of iniliations are in progress at Si. DIVERS SALVAGE SPANISH TREASURE

Polish authorities are being pressed by the U. S. State Department for an explanation of the mysterious disappearance of Hermann H. Field (above) who vanished behind the "tron Curstain" a month ago. Director of building plans at Giverland college, he went to Poland while checking reconstruction progress in Eureconstruction progress in Eureconstruction progress in Eureconstruction progress in Eureconstruction. Arthur McKee and Charles Brookfield display the Spanish treasure silver ingots and gold doubloons, from a Spanish ship found at by McKee, a deepsea diver, near the great coral reef off the Florida coast. One of the ingots has been sold to the Smithsonian Institution as a museum piece. The ingots, each weighing about 70 pounds, bear the markings of the Spanish mint and assayer, They were mined in Panama. The ship found by McKee in a bed of coral and barnacles is believed to have been a galleon that went down here in the 16th or 17th century.-Central Press Canadian,

GREATER CARE IN DRIVING NOW

The season now near at hand calls for more than ordinary precaution on the part of the motorist, the days are shortening. The Department of Highways points out that four to five o'clock is the time when traffic accidents

are abortening. The Department of Highways points out that fore to fave oclock is the time when traffic accidents affect children most and that more children are pittled and the state of the control of the pear, but the Department has the evidence.

So drivers are warmed to be on the lookout for children on the streets all, not just of the time but especially it has is a terror at this time of year.

It is a sufficient to the control of autumn and as October near, with the arrived of autumn and as October near, with the arrived of autumn and as October near, when the control of autumn and as October near, we have the control of autumn and as October near, which is a married on the control of the control of the control of autumn and as October near, when the control of the control of autumn and as October near, and the control of the control of autumn and as October near, and the control of the control of autumn and as October near, and the control of the control of autumn and as Oc

With the arrival of autumn and as October nears With the arrival of autumn and as October nears, lights will be flicked on care earlier than usual. More hours of darkness naturally mean more danger from blind-ing headlights, the Highways Department warns, as they

r this advice: ,
"A driver's bright if he dims his light Lower your headlight beam for the driver you meet, whether he does onet. Don't pay for stubbornness with a head-on crash - slow down at sundown."

HALF A SHIP SAVED

All that is weeked is not lost aship built in Sweden in 1938 and christend "Koligan", It was sold to France and renamed the "Picardia." During the week of the France and renamed the "Picardia." During the set being saved and beek to Histan and later to Oran. This part was bought by a Notwegian firm in 1948 and in less than a year a shippard of Kiel has rebuilt the entire vessels to that it is completely new. It's load is 13,500 tons deadweight and the rew's accommodation conforms to the highest standards. Among the navigation instruments is nothing less than soodern reduce.

TREE TRUNKS

Fig. 21th. 1114.

The Outries Pervicial directions will be held on Oct. 20th.

The OLTE's beautiful teachers.

The final score yester.

The final s Contrary to popular opinion, roots do not draw liquid food from the soil. They carry water with dissolved chemicals through a system of tubes to the leaves, Here the sun-light works on the chicrophyll and manufactures specified to the contract of the con Geyer for Belleville fanned 18. The members of the team received a great velcome when they arrived home from To-ronto; the 15th. Regimental Bedd and hundreds of cilican were at the station. Headed by the band the boys were exort-ed to the corner of Bridge and Front Streets. Many motor cars were in the parada,

he ents a tree. The width of the cell ring can tell us what send of a growing season it was generations ago, send of a growing season it was generations ago, send of a growing season in the generations ago at the height of the growing set through the trunks and given of through the leaves. An acre of apple orchard evaporates many tons of water a day at the height of the growing send send to the state of the send of the growing send of the send of

material.

Now in the ninth month the trunks have ended their beasonal expansion; loose bark makes an intricate pattern on the boles. Soon the twigs will manufacture a plate of cells at the end of leaf stems and leaves will begin to fall. Ottawa Journal

The Truth about **Hylon Stockings**

There is guilte a lot of confusion about how to wear nylon stock! Should they be turned inside-out? Should they be wern with the seams on the inside? Here are the true answers to these questions and an end to the confusion about how to wear nytons.

estion of how to wear stockings first come up some years ago, women discovered that by turning their silk stockings inside this duller, no-sheen look; even the best groomed won were willing to sacrifice a part of their good groot the seams of their stockings on the outside.

Well-Groomed Women always Wear Their Hylons with the Seams Inside

acrossy women an an action are specific and a specific and a sylens inside-out. A leading Canadian manufacturer, the Butterfly Hestery Company Limited, has for years been making steckings inside out through Butterfly's exclusive reverse-knit process. Only Butterfly 'nylons have that sheerer, softer, duller, no-sheen look alree the outside. And important too, Butterfly seams are on the

PARIO INTELLIGENCER, THURSDAY, SEPTI THE ONTARIO INTELLIGENCER

shed 1962 — Intelligencer Setable Published Delly by the LEIO DETELLIGIBLESS LIMITED

THE POLICE

A group of most important men in Ontario is meeting at Windsor. They are members of the Ontario Chief Con-stables Association. On them rests the enforcement of the laws and the preservation of order, for Canadian society is an orderly society, which is a credit to not only the people of Canada but also to those who look after law enforce-

tion has been focused upon the freedom or lack of freedom of various peoples. Before the revelations which the First World War brought not so much interest was taken in the copies of other parts of the earth by a great many. Since fat struggle and especially since the Second World War, copie in any country can see and realize how important it

is to have an orderly free society.

People of the different provinces of Canada are a unit

being an orderly people.

But in every country there are some who flout the
www. These are the people who cause conditions which call
the maintenance of law and order by police and for purnt of offences.

hment of offences.

In Chief Constables reposes a high responsibility for seministance of law and order proceeds through that rection. The duties that fall to these officials are nearons of orgest importance for the welfare of scolety. They determine their duties in a manner satisfactory to the highest sense of justice of the people as expressed in the laws. Their duties are many. They detect crime and bring frenders to justice, they proceed property and life, carry search for the lots and in this respect they again prove last work. They are on duty when people are away from one. So much rests on them.

Ir worth. They are on only when people are away from ne. So much rests on them.

They create a wholesome respect for the law and give feeling or sense of security which a citizen feels when knows that the eye of the police never closes.

They are alert to their duties as they are the friends of

who love and obey the law.

those who love and obey the law. Without them the carrying out of the law in every part of a great country could not be the schlerement it is and of this the nation has a right to be proud.

Under so many conditions they are the interpreters of law and justice and of the law-abding. Their work is nerre done for duty's call is insistent and not to be denied.

sensed. In the course of a year a local police force can be cred-ted with many thousands of kindly acts abown citizens and faitors, acts performed out of goodness of hears for some-ms in anxiety or distress.

se in anxiety or distress.

In the rush of the day the members of the police force on duty to guard life and property. At night we sleep sundly and without care because we know the eye of the olice always watches and their strong, brave arm guards

They preserve security and life and property so unostatiously, so confident are the people in their police

Upon the Chief Constables rests great responsibility, enforcement of the law impartially in the name of free-

the enforcement of the law impartially in the name of free-dom and safety of all.

How otherwise would it be if there were no such police?

Here the police are the symbol of the power of a free people in a land where those who are honest and just rule and control and where oppression is unknown.

TOURISTS IN 1949

Tourist year 1949 it is believed will prove one of the most successful of the recent years as far as fouring by citizens of the United States in Canada is concerned. Last year the guests of Canada from the United States spent an estimated \$270,000,000 in this country which was \$29, 000,000 more than in the previous year, the best then on

Business with the tourists has been good, that is the word all across Canada this year. From the west coast comes word that all tourist trade records have been broken in British Columbia with an estimated \$50,00,000 as the volume of business turned over as a result of their visit. From Alberta the news is that about \$20,000,000 worth of business is expected by the end of the season. This is an inbusiness is expected by the end of the season. This is an in-crease of three million dollars. From Saakschewan the word is that over 32,000 tourists made their way through the province in the very early part of the season, the num-ber being greatly expanded in the latter part from 20th owners, 18th onward to the end of the season. Manitoba has reason to believe that the tourists from "across the line" have lost about eight million dollars so far. In Ordatto there has about eight million dollars so far. In Ordatto there has the believe of the control of the control of the control of the table of the control of the control of the control of the respective of the control of the control of the control of the respective of the control of the control of the control of the respective of the control of the control of the control of the respective of the control of the control of the control of the control of the respective of the control of th province last year. From the eastern provinces, including Newfoundland, it is believed the increase in trade has been very marked. The new province of Newfoundland last year had 10,000 tourist visitors and expects that before the present season closes there will be far more than that numbe invade the province this year.

Canada offers a rich appeal to visitors. This country is young with great areas in almost the natural state, while her lakes and waterways offer an attraction which few

countries can approach.

This country is rich in prairies, in mountains like the Rockies, in forests, in arable fields and in mineral-bearing

FIRST USE OF HEAT IN AUTUMN

Since September has had a number of cool days most people have been compelled to use some fire to heat their homes. Often the time of this ritual, the lighting of the fire, is delayed to much later in the season when nature takes on the full appearance of autumn. Now though there was considerable drough! last summer, and some laws of their content of their summer appeal, and the same than th garb of the trees. But it has turned cool.

The other day it was in the New York area no doubt

The other day it was in the New Addition of the about as warm or cool as it was here and when most people about as warm or cool as it was here and when most people about as warm up their homes, the up here were lighting fires to warm up their homes, the New York Times had an editorial on "Firest Fire" in which it said that "tending hearth is an art that must be learned; it requires skill, patience and tolerance. One needs as amiable philosophy to get the most from the leaping flames; one needs an ear to hear the song of the wood as it Hames; one needs an ear to near the song of the wood as it gives itself to warmth and color. He who does not care for spilled ashes and who resents bits of bark and spiniters should not dedicate himself to tending a fireplace. The wise countryman knows that a generously deep bed of ashes is fundamental to a good fire; he knows that the birch and cherry, beach and oak he chopped a year ago will drop and cherry, beach and oak he chopped a year ago will drop

A PART OF DODGE

DEPENDABILITY

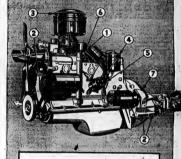

YOU SAVE MONEY every mile you drive with the Dodge simple-design L-Head engine. There are fewer moving parts to wear. Oil filter, floating oil intake, and air cleaners keep carbon and dire from moving parts to reduce wear. Such "extra" features as four rings per piston, full length water jackets, lightweight alloy pistons and alloy exhaust valve seat inserts, result in savings on gas, oil, and repairs.

Other leading features of the economical Dodge engine are explained on the right. But in many other ways Dodge gives you more for your money.

You could pay much more, and still not get all of Dodge roominess, beauty and ruggedness.
Test for yourself the generous head, leg, and elbow room. Compare the "outlook" through the high, wide windshield. Note how easy it is to get in and out. Try out the new Dodge on the road and discover for yourself its flashing performance, driving ease, safety, and riding smoothness.

No matter which way you look at it, your dollars will go further with Dodge . . . and so

CHECK THESE "EXTRA" FEATURES WHICH ARE STANDARD EQUIPMENT ON THE NEW DODGE. Actorwise slowly choose you will be seen to be a compared to the c

1 LHIAD OPERATION is quieter, as all moving parts are inside the block. Fewer parts to wear or work loose assure longer life. Simple controtion allows easy maintenance.

2 PLOATING POWER Is the name given to the scientific Dodge method of mounting the engine on the chasis so that engine vibration is not transmitted to the body. Results in smooth, quiet operation and long car life.

3 Oil BATH AIR CLEANER filters the air before it enters the carbureor. By keeping dust out of the engine, it cuts down re-pairs and lengthens engine life.

4 ON PICER of microsic type, filters even the smallest particles of carbon or dirt out of the oil and so reduces wear on bearings and cylinder walls for long, trouble-free engine

5 WIATHEPROOF IGNITION
5 STITUM gives maximum promotion against water and dirt for dependable all-weather operation. Distributor has new splath-proof c.p. Centre distributor brush has a 10,000 ohm carbon suppressor which allows a wider spark pap seeting for better idling and low-speed performance.

Automatic choke. The choke enriches the mixture by automatically reducing the proportion of air drawn through the carburetor during warmup, to provide easy starting hoder all weather conditions. Saves fuel by prevening too rich an operating mixture.

7 JUID DRIVE on Custom Dodge models lets you drive, relaxed, in high gear most of the time. It is particularly effective on wer pavenent, los or mod, allowing smooth transfer or power without stalling. The Custom Dodge is still the lowest-priced car in Canada with Philad Drive as standard with Philad Drive as standard

Washes clothes cleaner, without wear, with safety and convenience . . . gives longer years of trouble-free service. The Westinghouse Washer is the only washer that provides the "Sentinel of Safety." This protects the motor sgainst damage, and ends the bother of blown fases. Beautiful pure white porcelain enamel tub. "Feather Touch" Safety Release Wringer.

South opens with a heart and rest bid a spade. Before north ays anything, east pops out with pass when he has this hand:

What is the penalty under the new laws? North does what he wants to do, East must pass the first time it comes to him. From there the auction continues as if nothing irregular has happened. A pair should receive a penalty

s me great pleasure to forget various conditions. It is a re-to know that all this is behind low. The 1948 laws make the cet easier to interpret. The 1948 laws make the cet easier to interpret. In the 1949 laws make the passes out of turn must pass next it is his proper turn all. He was going to do this way. No harm was done to year, so harm was done to year to be a significant of the term of the present the pass. DANCING
